

Canon Printers for Graphic Arts and Photography

A Powerful trio: color, control and speed

Offering a 17" to a 60" printer line-up, Canon technology will help you reach a whole new level of color management and uniformity.

Why 12 color?

This printer ink set is comprised of 12 colors: four standard process colors with Photo Cyan and Photo Magenta; plus Red, Green, and Blue; Matte Black, Gray, and Photo Gray. This unique combination creates a broad color pallet and delivers exceptional print results. The Canon printer's LUCIA ink is specially formulated to reduce graininess and bronzing and resist scratching and fading. Photo Black, Matte Black, Gray and Photo Gray optimize black ink density for exceptional monochrome photo-quality output. Based on the type of ink being used, the Canon printers automatically match the correct black ink to achieve the best print results.

Thus the line of the 12 color, iPF series...

iPF5100
17 inch wide format, 12 color printer

iPF6400
24 inch wide format, 12 color printer

iPF64540 24 inch wide format with 250GB Hard Drive, 12 color printer
